

## Prepare to be Enlightened

*Cutting edge technology, super tough downlights, new architectural designs and more! RL Vanstory's line card continues to grow with new manufacturers and all new products from some of your favorites. Continue reading below to learn more about new lighting solutions offered by RL Vanstory!*

**AcuityBrands.**

*Acuity Brands' DC2DC architecture provides for distributed DC power to a LED lighting system, enhancing its efficiency by eliminating the need and cost to convert AC to DC power at the luminaire, and facilitating the installation and commissioning of lighting controls.*

- Intrinsically more efficient
- Savings on Design and Installation
- ROI on continuing operations
- Design for Sustainable and Well-being applications
- Up to 10% greater fixture efficiency
- Eliminates the need for power packs, j-boxes, and conduit to luminaires.
- Enables reconfiguration and customization of lighting control zones without rewiring.
- Eliminated materials generate a reduction in construction carbon footprint.

## The all-new Vandal Resistant Downlight from Luminaire LED

*The VRDL is up to the task in a wide range of high abuse environments.*

- IK10 and IP66 rated, Certified NS2F Healthcare approved.
- 4" and 6" formats with available "mud-in" flangeless solution for a pure architectural solution.
- Warm Dim, tunable white, amber and red options, creating a calm and comforting environment in difficult situations.
- Ligature Resistant
- 5 different finish options
- nLight and nLight air compatible

### Introducing the Neo Pendant from OCL Architectural Lighting

*Neo's fully luminous shade provides visual presence with soft, uniform illumination, and optimal 60/40 distribution. Its curved, attractive, optical design supplies outstanding efficacy and visual comfort with minimal glare.*

- Impact resistant - rugged & robust diffuser construction withstands bumps, hits & strikes.
- 18", 24", and 36" diameters
- Available in 80+ CRI and 90+ CRI
- Field replaceable LEDs and drivers
- 3 step LED binning
- Surface luminance of < 1600 cd m/2 - can contribute to WELL and LEED specifications.

## Introducing Vaso from Scott Architectural Lighting - SAL's first small-scale cylindrical LED Downlight.

*The VASO utilizes the latest in LED downlight tech, with (3) Mid-power LEDs mounted to a central board with high-efficiency acrylic lensing. Available in narrow, medium and wide beam spreads, the downlight at 12W delivers over 1500 Lumens in the beam.  
Available in 7 different finishes, as well as custom painted and powder coated colors!*

## HÈMÈRA

### EOS Collection

*The new E3S and E4S include solid aluminum bars with linear low profile in standard sizes of 20", 36", 48", and 72" while providing an abundance of light.*

*With its Linear low profile and discrete suspension that allows you to create your own design while offering a boost of light.*

Sincerely,

**Richard (Rich) Vanstory, Jr.**
