Lithonia® SIX
A Better Way to Light a Space

Lithonia SIX has redefined the commercial indoor space by reimagining the traditional luminaire and creating a 6" wide with 4" aperture linear LED lay-in light that meets modern design trends, is easier to install and is environmentally responsible.

- Available in 3 sizes: 2ft, 4ft, and 8ft
- Bezel or flat frames
- Black, White, and Natural Aluminum finishes
- Built in North America
- Fully configurable
- Embedded Controls
- Switchable lumen and tunable white technology
- Emergency Options

Acoustic material colors

Standard colors

Premium colors

Tune into acoustic lighting.

A-Light combines the most advanced sound absorbing materials with high performance lighting to create a functional yet decorative solution for reducing ambient noise.

From suspended and surface mount options, direct/indirect lighting, unique product shapes and vibrant color options, our acoustic package has got you covered.

About the material:

- Made of polyester (PET)
- NRC value of 0.75 according to ASTM C423-09
- Fire rated ASTM E-84 Class A / CAN ULC S102
- Recyclable and sourced from recycled bottles
- Low-VOC, no formaldehyde, odorless

- DW 4.0
- RGB 4.0

Light Engines and Wattages Alta-02

- SW1.0, 2.0, 3.0

EUREKA

TANGRAM

UNMISTAKABLY BOLD

Making a striking design statement is now easier than ever. With broad straps and four big, bold luminaires, the Tangram family from Eureka offers latitude for configuring lighting and geometries.

With its flat power cable fully concealed inside its strap, designers are empowered to invent their own visual language without suspension cables and fasteners in the way. Tangram offers absolute control over the mood and feel of a space.
